

BLACK FLUID

[Coal Tar Type - Liquid Disinfectant]
[POISON - CLASS B - HARMFUL IF SWALLOWED]

INTRODUCTION

BLACK FLUID is a dark liquid disinfectant with a strong phenolic odour and a pH level of 8,5 to 9,5 (1% solution) that is designed for use in households, public conveniences, mines, industrial organisations and any other outlet where the efficient disinfecting of inanimate objects like drains, rubbish bins, etc. are a necessity. This product is a blend of coal tar acids and emulsifiers having a Rideal Walker co-efficient of 3-5 min. It mixes easily and perfectly, forming a stable emulsion with either hard or soft water. It is effective against most pathogenic bacteria, including Escherachia Coli, Salmonella Tuphi, Staphylococcus Aureas and Pseudomonas Aeruginosa.

ADVANTAGES

- Economical
- Non-corrosive
- Non-flammable
- Stable emulsion
- Excellent rinsability
