SUNSET GRIT HAND CLEANER

[Newly developed non-silicon-sand based Grit Hand Cleaner]

INTRODUCTION

Many industries require a grit or abrasive hand cleaner. However, with this requirement certain disadvantages became apparent, e.g. one of the ingredients in most of these cleaners is Silicon Sand which tends to block drains and affect sensitive hands and skins. SUNSET GRIT HAND CLEANER is a high grade hand cleaner containing a calcium based abrasive which dissolves after prolonged contact with water thus greatly minimising the chances of drains and other disposal outlet blocking. It is also totally free of Aromatic Solvents, White Spirits, Paraffin or similar Hydrocarbon Solvents and its formulated Active Ingredients are so constituted as to provide excellent cleaning performance whilst minimising detrimental effects on sensitive skins. Because of its bactericidal and antiseptic make-up SUNSET GRIT HAND CLEANER is also excellent for use in the Food and Beverage Industries.

SPECIFICATIONS

pH : 7,5 to 8,5

Base : pH adjusted natural and organic soap

Active ingredients : Oils, surfactants, antiseptics, emulsifying

agents, coconut oil, pine oil

ADVANTAGES

- Non-toxic under normal conditions of use
- · Completely water rinsable
- Non-flammable
- Economical

DILUTION Use AS IS.

METHOD

Simply wet hands and apply approximately one teaspoon of SUNSET GRIT HAND CLEANER, work well into hands until a rich creamy lather is obtained and rinse to leave hands and skin pleasantly soft and clinically clean.

NOTE:

SUNSET GRIT HAND CLEANER is a powerful product, designed to remove heavy soils and grime and could therefore also remove the natural oils from the skin of sensitive hands which could result in dryness. It is for this reason that it is recommended that a moisturising cream be applied to hands after use.

CAUTIONS

Although SUNSET GRIT HAND CLEANER is relatively safe with no hazardous implications, it is always advisable to take the necessary precautions as is with all Chemical Cleaning Products.
